MATERIAL INFO

3M™ Scotchlite™ reflective materials work on the principle of retroreflection: The incident light is reflected back to the light source. Thus, visibility is ensured even at night.

Teflon coating makes fabric water-resistant and dirtrepellent without affecting the fabric's weight, look or breathability. Those fabrics are not usable for imprinting.

A worldwide protected brand for quality yarns that have been spun on an Autocoro, equipped with Belcoro® spinning components and for the textiles made from these yarns.

Thinsulate™ is a trademark of the 3M Coporation for a thin heat insulating fleece made of sythetic fibres. These fibres let the moisture escape but keep the warmth inside.
